Sogreah's services

- Design Services
- Works Supervision

Description / Particularities

- La Baule beach runs for a distance of 6 km;
- Nourishment operations involving 215,000 m³ concerned the central part of the bay over a distance of 3.4 km;
- The work was carried out from land between December 2003 and March 2004.

Detailed services:

- Feasibility study and definition of an appropriate solution to the problems of beach erosion;
- Design studies;
- Preparation of statutory files and assistance with monitoring the files during administrative examination;
- Preparation of tender documents and analysis of bids;
- Monitoring of works and assistance with works acceptance operations;
- Monitoring of changes in the beach and supervision of maintenance operations (additional assignment for the years 2008 – 2012).
