- ▶ Assistance to the Owner (in association)

Description / Particularities

- The South Lake just outside Tunis is a huge expanse of sea water covering over 1500 ha;
- The water quality is poor and the environment has deteriorated;
- SEPTS decided to launch a rehabilitation programme for the South Lake along with a 600 ha urban and tourist development programme;
- Investors from the Gulf are very interested in this project.

Detailed services:

- Supervision of the hydraulic and hydro-biological studies;
- Monitoring of the works from the point of view of hydraulic design and impact on water quality;
- Supervision of dredging and backfilling operations;
- Legal assistance during the works;
- Monitoring of water quality over a period of 8 years.
