

REUNION TRAM-TRAIN

SAINT PAUL – LE PORT – LA POSSESSION – SAINT DENIS – SAINTE MARIE

**Owner:**

GTOI – Bouygues TP – Demathieu et Bard joint venture
(in the framework of the invitation for tenders for concessionary operation of the Réunion regional tram-train system)

Date: 2008**Investment:**

€1,300,000,000

Assignments and amounts:

- Study of network diversions
- Environmental study
- Hydraulic and sewerage study
- €360,000

Composition of team:

- Setec TPI (main partner)
- Sogreah

Description of the project:

- ◆ Creation of a tram-train. The operation will connect five communes and include the construction of 26 stations, an operating centre and a stabling centre. The route will be punctuated by a series of 9 transport interchanges and park-and-ride facilities.
- ◆ **Main characteristics of the project:**
- ◆ Length about 40 km
- ◆ Several densely populated areas (Le Port, Saint Denis) crossed
- ◆ Identification of networks affected by the tram-train
- ◆ Study of network diversions to free land for the tram-train
- ◆ Stormwater sewerage project
