

RÉHABILITATION, SAFETY MEASURES & ACCESS FOR DISABLED PEOPLE NANTES (FRANCE)

Owner:
Université de Nantes
Division du Patrimoine Immobilier

Date: 2005 / 2006.

Cost of works:
€2.8m excl. VAT (total cost of safety measures)

Cost of project management assignment:
€260,000 excl. VAT

Assignments:

- Full project management
- In situ engineering design

Main characteristics of the project within the context of a general safety compliance works operation:

- Access for disabled people between buildings thanks to the creation of ramps
- Access for disabled people inside buildings thanks to the integration of wheelchair platform stair lifts.
