- ▶ Project management

Context

At the same time as the building façade was being renovated, a lighting system was installed.

Aims of the project

The project aimed at restoring its prestige to one of the most beautiful buildings in Toulon.

Description of the study

- Highlighting of the façade, galleries and monumental staircase that can be seen through successive openings in the building.
- Highlighting of the entrance courtyard and fountain.

Description of works

- 150 m of trenches.
- 1,500 m of cables.
- 108 accent lighting floodlights.
- 32 embedded floodlights.
- 4 Lekos (profile spotlights).
- 75 diode linear spotlights.
- 1 PLC.
