

Oullins cemetery memorial garden Renovation of alleys and reorganisation

Country

France

Client

Mairie d'Oullins

Date

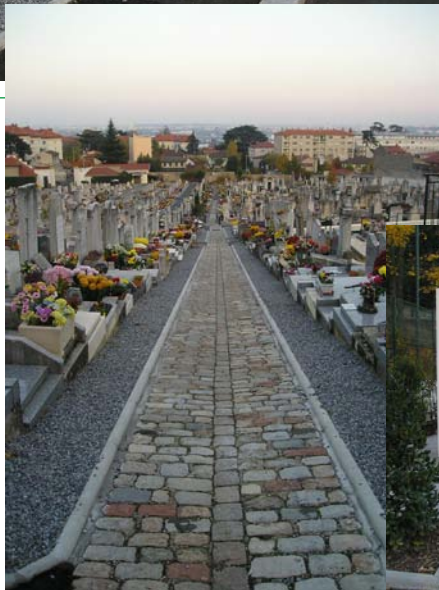

2006-2007

Cost of works

€232m before tax

Sogreah's services

- Design services and project supervision (preliminary and detailed design studies, assistance with works contract, inspection of working designs, supervision of works, assistance with acceptance procedures)

Background

The first part of the Oullins cemetery redevelopment project consisted in renovating the inner alleys and repairing the borders, paving and surfacing, as well as laying granite gravel edges. Secondly, the memorial garden was reorganised in order to

harmonise the columbariums around the edge of the garden with the redesigned green spaces, new deactivated concrete pathways and retaining wall beneath the enclosure, install an irrigation system and introduce new urban furniture.

Characteristics

- ◆ 550 m³ of earthworks;
- ◆ 2 700 m² of roads and pavements;
- ◆ 1 350 lm of borders;
- ◆ 200 m² of deactivated concrete;
- ◆ 50 lm of enclosure.
